WELCOME

OUR JOURNEY TOGETHER CONTINUES

We would like to warmly welcome you to the second cohort of INDIGI-X - a program that was created last year to facilitate connections between Indigenous Professionals around the world.

We received an overwhelming number of applications to join this cohort and invested a considerable amount of time selecting the delegates for this cohort.

Our alumni can attest to the power of connecting both professionally and personally across borders. Long-lasting friendships have developed, alongside opportunities to do business together during our program. Many have gone on to use their experiences in the program to speak at conferences, earn consulting contracts, and board positions. You will get out what you put into the program.

Together we will show our community, our ancestors and our Nations that amazing things happen when Indigenous Professionals connect and work together.

We both warmly welcome you into our network and wish you the greatest of success in the program!

MINISTER'S WELCOME

Hello, Bonjour, Kwe Kwe, Boozhoo, Ullukkut, Asujutilli, Tanisi, Aaniin, Wotziye, Tanshi,

I am honoured to welcome the delegates joining us from across Canada and Aotearoa. I also want to acknowledge that we are all coming together from the traditional lands of Indigenous Peoples on both sides of the Pacific.

Last year's inaugural INDIGI-X Virtual Exchange brought together Māori, First Nations, Inuit and Métis leaders and professionals to identify innovative new ideas and opportunities for engagement and partnership. This year, while in the midst of a global pandemic, I am confident that participants will continue to foster meaningful new connections through inclusive dialogue and knowledge-sharing. Strengthening connections between Indigenous Peoples in Canada and New Zealand will support our collective efforts in the post Covid-19 recovery as we look to build back better – economically, socially and environmentally.

Canada looks forward to working with all partners to continue to expand this exchange over the coming years.

Thank You. Merci. Meegwetch. Nakurmik. Kinanâskomitin. Migwetch. Masi Chok. Marsee.

The Honorable Carolyn Bennett

Minister of Crown – Indigenous Relations
Government of Canada

MINISTER'S WELCOME

E ngā mana e rarau mai, tēna koutou katoa.

I am excited to welcome you to the second INDIGI-X Virtual Exchange- a program created to facilitate connections between Indigenous Professionals around the world.

This is an Indigenous 'first' and in these challenging times, we can harness the knowledge and insights that can create partnerships and alliances for the wellbeing of ourselves, our Nations, and our world.

In this virtual collaboration, you and your Indigenous peers from around the world will forge connections and work together to find new opportunities for cross-border development.

My tupuna said; "whiria te tangata" which means "weave the people together ", which is exactly what this exchange does.

You will meet others just like yourself who face similar issues and challenges, but who also share the same hopes and aspirations for their whanau (relations). Take your time and get to know each other well. Share stories of not only your work, but your families and interests. This is where the meaningful connection happens.

Welcome to our new virtual circle of Indigenous Professionals from all around the world.

Pai Mārire.

The Honorable Nanaia Mahuta

New Zealand Minister of Foreign Affairs
Minister of Local Government
Associate Minister of Māori Development

PROGRAM OBJECTIVES

- To **foster meaningful connections** between Indigenous professionals across countries
- To facilitate the **development of Indigenous economies** by strengthening the formal and informal networks between countries
- To demonstrate the **power of global Indigenous collaboration**
- To build the business case for a **face-to-face exchange program** for Indigenous Professionals in the future

INDIGI-X was created to facilitate the connection of Indigenous Professionals internationally, encourage collaboration and facilitate economic growth.
